BSDS 100: Intro to Data Science with `R`
Assignment 6

by James D. Wilson (University of San Francisco)

Directions: For all questions in this assignment, write complete sentences and fully answer any question that is asked, and use `R` to answer each question. Provide all `R` code and solutions by *knitting* your final RStudio file into a single file named `[your_name]_CA6.pdf`. This assignment is due next Tuesday at the beginning of class. Late assignments will automatically have 10 points deducted.

1. Complete exercises 1 - 6 of Section 14.2.5 in the *R for Data Science* book here: http://r4ds.had.co.nz/strings.html.

2. Complete exercises 1 - 3 of Section 14.3.1.1.

3. Complete exercises 1 - 2 of Section 14.3.2.1.

4. Complete exercises 1 - 3 of Section 14.3.3.1.
